

I just heard that kids from 12 years on up can get Pfizer COVID-19 vaccine. Will you be getting yours?

Yup! For sure. My mom told me that it is 100% effective at preventing COVID-19 infection in kids 12-15. I'm so glad that it's our turn now.

Sioux Lookout  
First Nations  
Health Authority

**What can kids do?**  
Practice public health measures  
and get vaccinated!
