CORONAVIRUS COVID-19

INFORMATION SHEET

Ontario's COVID-19 Vaccine Certificate

September 3, 2021

COVID-19 and Delta variant cases are rising; we are in the fourth wave. Most cases, including those in hospital and ICU, are in the unvaccinated or partially vaccinated. To stop the spread of COVID-19 and keep Ontario's business and services open, the province is moving ahead with a **new public health measure**.

As of September 22

You will need to show proof of two COVID-19 vaccinations and personal ID to be able to enter certain places where masks cannot be worn all the time:

- restaurants and bars
- nightclubs, inside and outside
- meeting and event spaces
- most fitness and rec centres
- sport and racing events
- casinos and bingo halls
- concerts, theatres and cinemas

Proof will be the card or form you received at the vaccine clinics. It must have your:

- name
- birthdate
- last 4 digits of your health card
- name of vaccine
- lot number
- dose
- site and time given
- health authority

Your digital vaccination receipt is also an acceptable form of proof. It may have been sent to you by email, or can be downloaded: <https://covid19.ontariohealth.ca/>

CORONAVIRUS COVID-19

INFORMATION SHEET

Keep it with you

Make sure you have paper copies from **both vaccine doses** with you in your wallet or purse. You can also take a picture of these and save them on your phone.

Download and save the digital vaccine receipts on your phone. In both cases, you will need to show your personal ID too.

Things will change again on October 22

Over the next month, the province of Ontario will create a digital vaccine certificate. This will become the standard proof that can be used everywhere in Ontario. It will be secure and private. You will have a QR code that is yours alone.

Businesses and services will have to use an app that can read these QR codes and verify your vaccine status. By October 22, the only accepted form of proof will be the Ontario Vaccine Certificate and your personal ID.

Be prepared

If you are fully vaccinated, get your proof ready. If you are partially vaccinated, there is still time to get your second dose. If you have a medical exemption or are a child under 12 years old, you will be allowed into these places.
