

IMMUNIZATION

It's for **your** protection.

Sioux Lookout
First Nations
Health Authority

A photograph of two turtles resting on a log by a lake. The turtle on the left is larger and has a dark blue-black shell with a yellowish-orange underbelly. The turtle on the right is smaller and has a similar dark blue-black shell. They are both looking towards the right. The background is a calm blue lake under a clear sky.

I heard that some people can get a third dose of the COVID-19 vaccine.

That's right!
Some adults may benefit from getting a third dose of the vaccine. Talk to your community health nurse to learn more.
